

# Let's Spicefy!

What is your favourite flavour?

# We are Culinar

We have supported and partnered with the international savoury snacks industry for over 50 years.

We provide ideas, trend information and customized product development.

We offer tailor made, quality assured seasonings and a large range of spices and seasonings for potato crisps, nuts, pop corn and extruded products.

We offer a wide and range of packaging solutions.

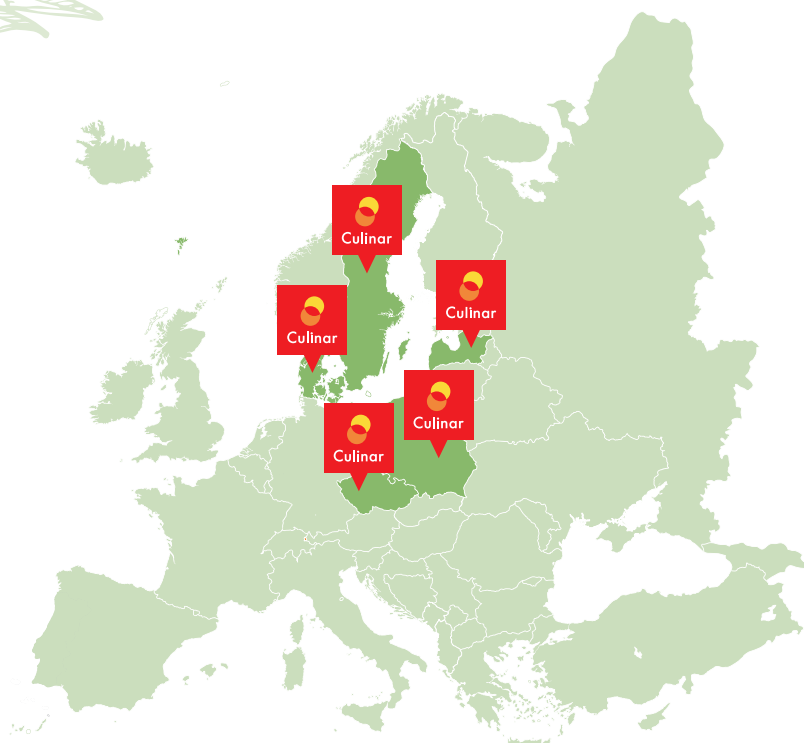

## Close to customers and markets

We are based in Sweden with local snacks flavour developers operating at our regional facilities in Denmark, Poland, Latvia and Czech Republic.

We believe in working close to our customers on the local markets, having the important regional knowledge as well as the international understanding of the snacks segment.

This is why our regional offices are the first-point of contacts for customers, regions and markets outside Scandinavia.

Our aim is to be a powerful flavour partner for snacks producers in and outside Europe.

*Our head office and production facility is situated in the south part of Sweden, 1,5 hour's drive from Copenhagen airport.*

## Legislation food safety and sustainability

Culinar is a member of ESA European Snacks Association and in several other international networks. This gives us access to expertise in legal matters, spices, seasonings, food additives, ingredients, etc.

## Quality -first and last

Culinar is highly certified in order to meet the wishes of our customers. Pursuing an environmentally conscious and sustainable business is central to us.

### OUR ENVIRONMENTAL MANAGEMENT SYSTEM

is based on ISO 14001 and since 2006.

### OUR ENERGY MANAGEMENT

is certified according to ISO 50001.

### OUR TARGETS TO REDUCE ENVIRONMENT IMPACTS

are monitored, evaluated and revised on a regular base.

### FOSSIL FREE AND RENEWABLE ENERGY

Since 2013, electricity is the only source of energy at our production facility in Fjälkinge. Since 2019 we use electricity only from renewable sources.
